

MIDDLE SCHOOL VISIONING SESSION

- Common areas for students to relax and collaborate.
 - Possibly a Metro café.
- High school Administration on the main floor where they can be easily found and interact with parents/students.
- Secure access/entrances to all exterior doors. Teachers could have a card or fob systems while the main entrance would be a single control point for visitors.
- Dedicated teacher lounge.
- Efficiency of floor plan (not a circle).
- Robotics lab (Tulsa Memorial lab as example).
- Sound transmission between classrooms and from classrooms to the corridors.
- Increase the auditorium size to accommodate all students and teachers at the same time.
- Separate computer labs for elementary, middle school, and high school.
- Traffic flow in general (pick up/drop off, special events, campus entrance, parking flow, etc).
- Fish aquarium.
- Outdoor space for eating next to the cafeteria.
- Windows.
- Praise and worship storage.
- The location of lockers near classrooms.
- Teacher Work Room.
- Green house space close to the building for infrastructure connection.
- Separate media center space for elementary, middle school, and high school.
- Wifi that works in every classroom.
- Chapel Space for small events/meetings.
- Repair parking lot near speed bumps where flooding occurs.
- Secure entrances at lower level.
- Student flow – Elementary vs High School.
