

REMOTE LEARNING GUIDANCE FOR ELEMENTARY

Early Childhood and Elementary Teachers will send and/or post grade-specific remote learning activities, guides, and digital tools throughout our time at home.

- Teachers will connect with families via email with specific plans and expectations for remote learning.
- Teachers will check and respond to emails and texts during normal school hours. Parents are encouraged to let teachers and/or Mr. Buffington (mbuffington@metroca.com) know of any questions, concerns, or prayer needs.
- Many teachers will be using Seesaw and/or Google Classroom as digital learning portfolios and a space to engage and connect with students and families. Other connection platforms may include Facebook groups, Face Time, and Instagram.
- Accommodations and allowances will be made for families without access to technology.
- Any work completed on paper will be collected upon our return to school.
