

## REMOTE LEARNING GUIDANCE FOR MIDDLE SCHOOL

.....

On Monday, March 23, we will give the community a chance to set up their home lives and care for themselves — and prepare for online learning. Families may pick up any items that students need from 9:00AM-4:00PM.

Middle School students: Parents are encouraged to come into the building with their child. Please practice appropriate social distancing while on campus. Please contact Mr. Davis at [RDavis@metroca.com](mailto:RDavis@metroca.com) with any questions that you have.

- Teachers will send lesson plans to parents and students by 3:00 on Monday, March 23d.
- Teachers will post assignments, lesson plans, etc on PCR
- Some faculty will be using Google Classroom. More information will be sent to families by teachers using this tool.
- Teachers will provide clear communication on deadlines for assignments.
- Flexibility and communication will be vital to this process. Students need to communicate any challenges they are experiencing with completing their assignments to their teachers.
- Students will not have daily meetings with their classes with this method of instruction, although some teachers may at times schedule online class meetings.
- Teachers will be available to answer questions during normal school hours.
